DETAILED ACTION

Claim Objections

1. Claim 11 is objected to because of the following informalities: on line 5, "the tub" should be "a tub" since it is the first recitation of this term. Appropriate correction is required.

Double Patenting

2. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

3. Claim 19 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 6.
4. Claim 20 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 7.

When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

7. Claims 2, 6, 9, and 11-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over FR '081.

For claim 2, FR '081 discloses a seat assembly for a motor vehicle having a tub (Fig. 4) disposed at least partially in a floor of the vehicle, the seat assembly comprising: a seat cushion 2 translatable on at least one track 15 to a position generally above the tub (Fig. 3), the seat cushion being stowable (or capable of being stowed) in the tub, wherein the at least one track is disposed generally laterally in the vehicle.

With regard to claims 6 and 19, at least one leg 10 extends between the seat cushion and the at least one track.

With regard to claim 9, at least one second leg 10 is connected to the seat cushion, the at least one second leg being disposed inboard in the vehicle from the at least one leg.

For claim 11, FR '081 discloses a seat assembly for a motor vehicle having a floor, the seat assembly comprising: at least one track 15 disposed generally laterally in the vehicle; and a seat cushion 2 translatable on the at least one track to a position generally above a tub (Figs. 3-4),

Art Unit: 3612

the seat cushion being stowable in the tub wherein the seat cushion has an underside, and the underside inherently presents a load floor when the seat cushion is stowed in the tub.

With regard to claim 12, the load floor is generally even with the floor of the vehicle.

Allowable Subject Matter

8. The indicated allowability of claims 2 and 6-9 is withdrawn in view of the newly discovered reference(s) to FR '081. Rejections based on the newly cited reference(s) are set forth above.

9. Claims 5 and 15-17 are allowed.

10. Claims 7-8 and 18-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

11. Applicant's arguments with respect to the claims 2, 5-9, 11-12, 15-20 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

12. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
